<b>Total Natural Gas Customers</b>	500,000
Ohio	400,000
Kentucky	100,000

Duke Energy Regulated Utilities conducts operations primarily through Duke Energy Carolinas, Duke Energy Progress, Duke Energy Florida, Duke Energy Indiana, and the regulated transmission and distribution operations of Duke Energy Ohio.

### Duke Energy Carolinas:

Duke Energy Carolinas is a regulated public utility primarily engaged in the generation, transmission, distribution, and sale of electricity in portions of North Carolina and South Carolina. Duke Energy Carolinas' service area covers approximately 24,000 square miles and supplies electric service to 2.5 million residential, commercial and industrial customers. Owned summer generation capacity: 19,600 MW\*

### Duke Energy Progress:

Duke Energy Progress is a regulated public utility primarily engaged in the generation, transmission, distribution and sale of electricity in portions of North Carolina and South Carolina. Duke Energy Progress' service area covers approximately 32,000 square miles, and supplies electric service to approximately 1.5 million residential, commercial and industrial customers. Owned summer generation capacity: 12,200 MW\*

### Duke Energy Indiana:

Duke Energy Indiana is a regulated public utility primarily engaged in the generation, transmission, distribution and sale of electricity in portions of Indiana. Duke Energy Indiana's service area covers 23,000 square miles and supplies electric service to 810,000 residential, commercial and industrial customers. Owned generation summer capacity: 7,500 MW\*

### Duke Energy Ohio/Kentucky:

Duke Energy Ohio/Kentucky regulated utilities service area covers 3,000 square miles; supplies electric service to 840,000 residential, commercial and industrial customers; and provides regulated natural gas transmission and distribution services to 500,000 customers. Owned summer generation capacity: 1,200 MW\*

### Duke Energy Florida:

Duke Energy Florida is a regulated public utility primarily engaged in the generation, transmission, distribution, and sale of electricity in portions of Florida. Duke Energy Florida's service area covers approximately 13,000 square miles and supplies electric service to approximately 1.7 million residential, commercial and industrial customers. Owned summer generation capacity: 9,100 MW\*

### Commercial Portfolio:

Commercial Portfolio, formerly Commercial Power, is primarily made up of the company's commercial renewables business – Duke Energy Renewables – which is a leader in developing innovative wind and solar energy generation projects for customers throughout the United States. The company's growing portfolio of commercial renewable assets includes 16 wind farms and 34 solar farms in operation in 11 states, totaling more than 2 gigawatts in electric-generating capacity. Learn more at [duke-energy.com/renewables](http://duke-energy.com/renewables).

Commercial Portfolio also builds, develops and operates high-voltage power and natural gas transmission projects throughout the continental U.S. These projects are designed to increase reliability, integrate renewables generation and relieve grid congestion.
